

TRANSACTION INSTRUCTIONS

FOR PURCHASES OF ALL DEBTS PUBLIC & PRIVATE BY OBLIGATION OF THE WORLD
GOVERNMENT Date: Perpetual

Re: Letter of Intent- Standard Benchmark Agreement

Financial Instructions for Settlement of All Accounts

Dear Whom this may concern,

ISO Standard World Currency is for all members of civil society who will participate in the world's Nibiru Reserve Public digital mutual credit banking system. Investors should note that government bonds, also known as Treasuries, are not subject to credit quality ratings, yet these securities are nevertheless considered to be of the very highest credit quality. All credit scoring and rating is done using bitcoin's distributed ledger.

1. The first step is opening an Ether Trade Account at <https://ethertrade.finance.blog>. All central mutual credit bankers are advised to use: Also use freewallet.io for access to their digital funds.
2. To initiate a transaction in the Ether Trade CES Account; first, send a purchase order, upon order seller will respond with an invoice. Please collect all KYC & AML information you need for all forms of reporting.
3. Upon receipt of the Invoice, the buyer next will send payment in the form of a Trade Slip, ISO Digital Fiat Currency, Standard Bond or Coupon(s), LOC's, Promissory Notes, financial instruments. All payments must be denominated in NEO World Currency for all form of negotiable instruments offered through the Security Transaction Operation Key System.
4. The Seller or Buyer then enters the transaction information into the Ether Trade CES depending on the form of payment. The Seller will but the buyer can also enter the transactions in the choice of any fiat type through the World Trust CSD (Central Security Depository Bank Account), V-Dollars; the Ether Trade CES Book-Entry Securities, Nomnis Book Entry Credits (NEO), Bitcoin or Tokenized World Currencies and Mutualized Assets from the Distributed Ledger on the Bitcoin Blockchain Smart Contract Platform found at <https://xchain.io>
5. The Buyer is responsible for doing due diligence before and after for any Security Offer and or Security Proposals listed on and off the Ether Trade CES Open Marketplace Listings (Buy and Sell Orders).
6. The Buyer is responsible for doing due diligence before and after for any Security Offer and or Security Proposals listed on and off the Ether Trade XCP DEX Listings (Buy and Sell Orders).
7. Ether Trade CES Participant member firms are obligated to act as the CCP (Central Counterparty Clearance House) for the entire core of the Bitcoin Smart Contract Assets Community and Open Market.
8. All Tokenized Bonds and Notes are best held on Commercial Paper-Wallets and individual e-wallet addresses designated for tokenized digital securities settlement and trade this regarding this matter.

Date: Perpetual

Maturity: 2048
